Optelec ClearView+ Speech

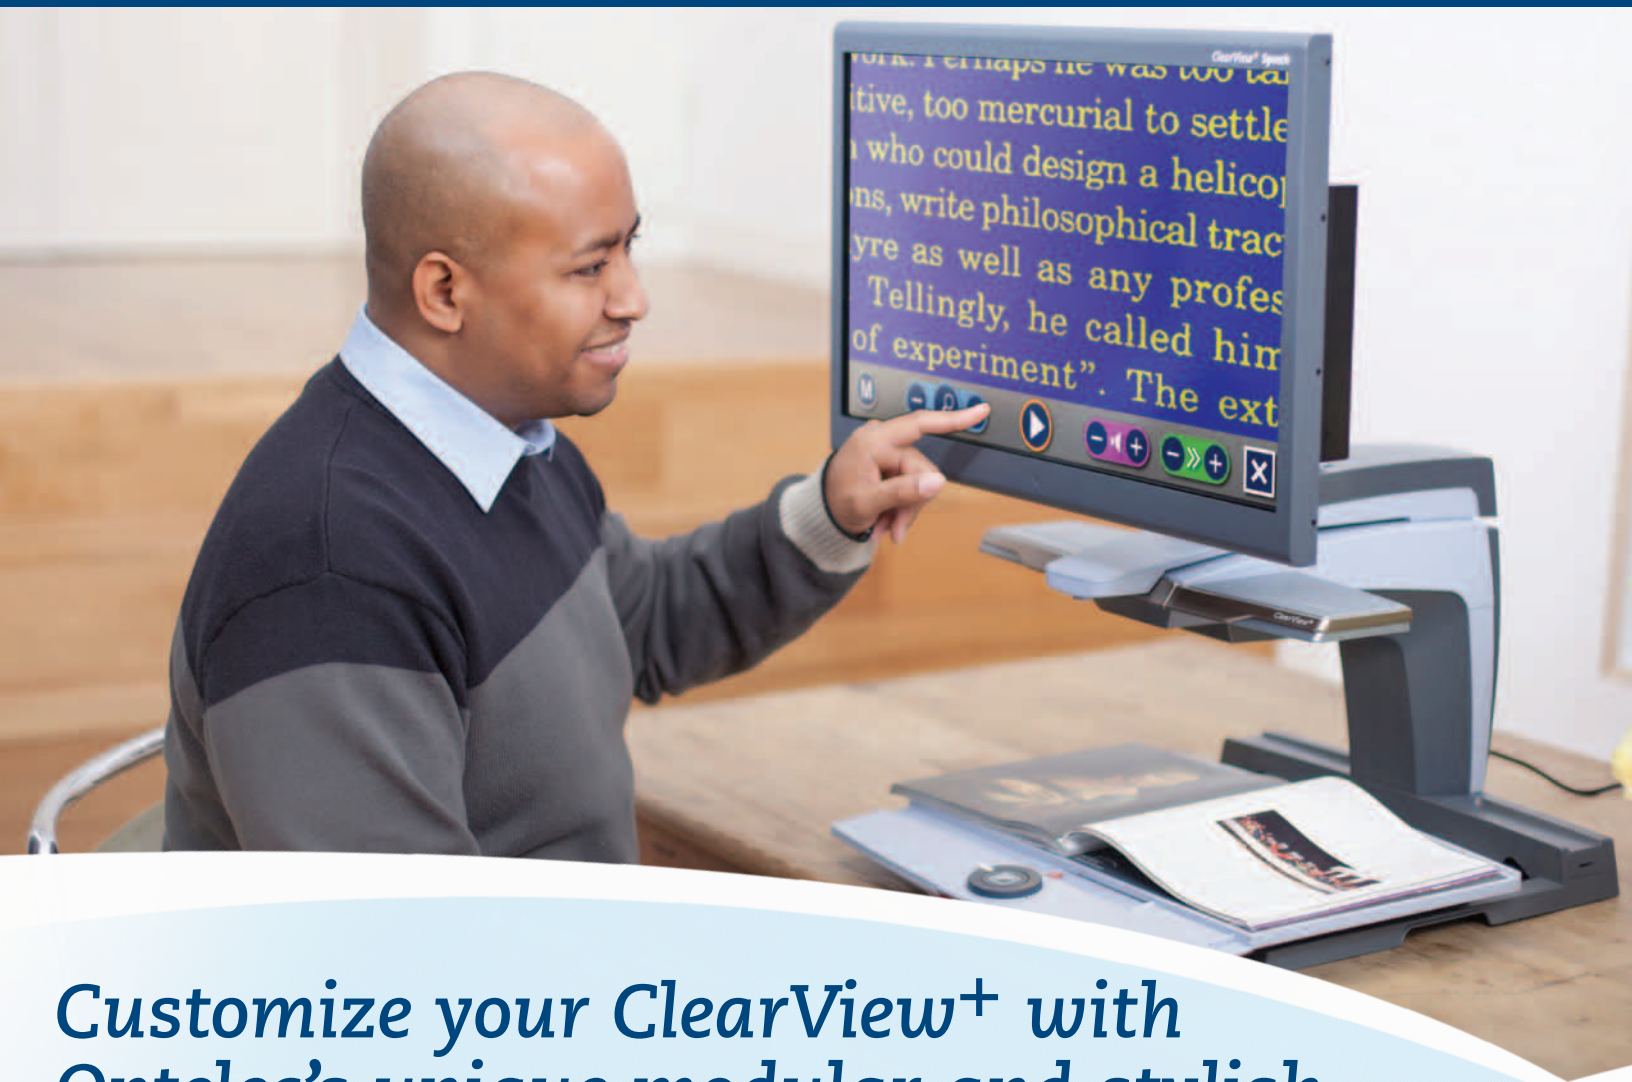

Makes Reading Easy Again

Does reading your newspaper or favorite book become too tiresome with a video magnifier? Do you lose time searching through text? Now enjoy the Optelec ClearView+ Speech. Sit back, relax, and listen to any printed documents as they are read aloud.

The ClearView+ Speech combines video magnification and accurate text-to-speech that makes it easy to select what you want to read. It allows you to enlarge materials to a more comfortable size or change the high contrast viewing modes with one master dial. To activate the Speech feature, just touch the screen and instantly enjoy listening to articles, letters and books with a natural sounding voice and full page overview.

Optelec ClearView+ Speech

Read documents with reliable Text-to-Speech / OCR

The ClearView+ Speech can instantly convert any printed text into speech. It makes it possible to access accurate information in a way that is most comfortable and easy for you, especially long text.

The Point & Read interface allows you to simply touch the screen for the Speech feature, and then sit back, relax and listen. You also have the option to select video magnification to view photos, bills and read shorter text.

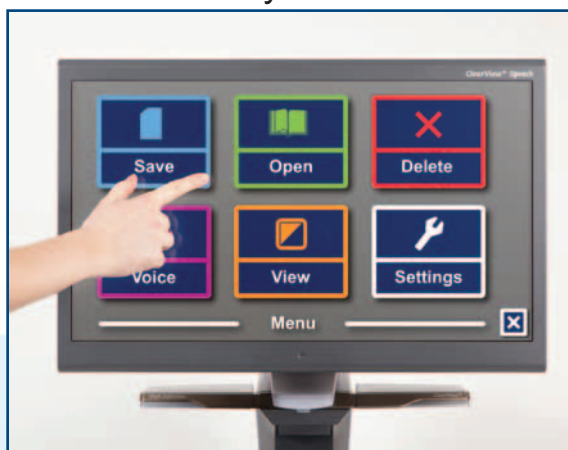

Capture the whole page and navigate quickly

The ClearView+ Speech displays full pages and automatically identifies the document or photo layout. Switch instantly between full view or navigate to various sections. Never lose track of where you are again!

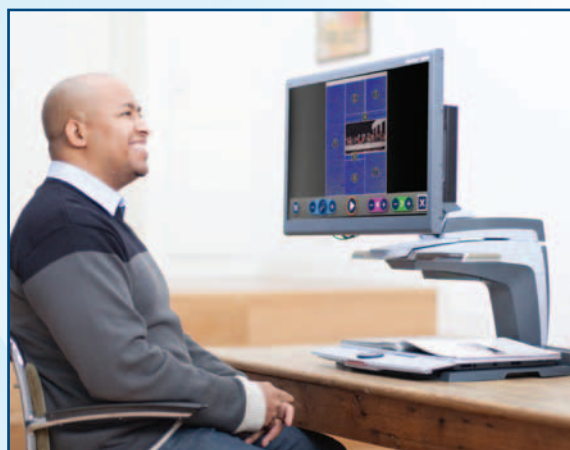

Point directly at columns or words and read

To scroll within the magnified document, swipe your finger on the 24-inch HD touchscreen monitor. Simply tap a paragraph, column or word to activate the Speech function and instantly enjoy listening to articles, letters and books. That's how easy it is!

Store your documents or view your favorite photos

You have the convenience of saving documents or viewing digital photos on a SD card or USB drive and access them when you need them.
