Teacher Library

What materials and resources will be useful for teachers?

This website is wonderful for using the current events in teaching. It has the daily news as well as archives. It is great for getting ideas to connect events in the news with curriculum.

This website includes a collection of lessons and web resources for K-12 teachers. The contents of the pager are organized by subject area and grade level. Teachers can choose from "Classroom Resources" (e.g., links to sites for lessons) and "Professional Resources" (e.g., teaching strategies, a teachers' "lounge" for online communication). This website is simple but somewhat limited because it mostly contains links to other sites rather than usable information on the actual site.
Learner Activities

What materials and resources will be useful for engaging students in meaningful learning activities?

Interactive White Board Resources:
This page is devoted to the growing collection of lesson plans that utilize Interactive Whiteboards as a technology resource.

Assessment

What materials and resources will be useful for assessing student knowledge and skills?

1. Students will be pre-assessed about their knowledge of the Vietnam War through bell ringer writing and class discussion.
2. After viewing a Power Point presentation over the Vietnam War, students will analyze key points about the war through review questions.
3. Students will complete prompts using a Vietnam War web quest in the computer lab.
4. Students will also be assessed by answering prompts in relation to Vietnam War protest music listened to while in class.
