Message to the Reader / Teacher

Before reading the novel *To Kill a Mockingbird* by Harper Lee, students must have background knowledge of the culture in the United States during the 1930s/Great Depression. This project is an effort for all students to have a general knowledge of the Great Depression and 1930s society and be able to apply this understanding to the basic plot and literary themes evident in the novel.

Evansville North High School is an urban school with over 1600 students in grades 9-12. The current special education population is roughly 15%, minority population is 18%, and our free-reduced lunch population is 39%.

Christina Ballew is an English special education teacher with 3 years teaching experience; Katy Elmer is a history teacher with 7 years teaching experience; Diane Nurrenbern is a math teacher with 17 years teaching experience; Bryan Perry is assistant principal of programming with 7 years administrative experience and 8 years teaching experience; Kaye Stoops is a special education department chair with 35 teaching experience; Leslie Wilhelmus is an English teacher with 8 years teaching experience.

In an effort to reduce student tracking, English classes are all-level inclusive up to the honors level. We designed this unit to ensure that all students have the background knowledge necessary to better understand this novel. This unit will be taught during the second semester in conjunction with U.S. History classes and will be taught over the course of one week (the actual teaching of the novel will take place over 4 additional weeks).
