This instructional unit is based on exploring the critical elements of a story to help with reading comprehension. The intent of this unit is to provide all students with the understanding of story elements: plot (exposition, rising action, climax, and falling action), character, setting, and theme. This unit will take approximately 2 weeks to introduce and will be used as a platform during the remainder of the year in language arts classes.

After this 2 week unit novel study, all students will be able to identify the basic structure of a story and the required elements. Many students will have a better understanding of how the different elements of a story are related and influence one another.

Individual teachers can be contacted through the Taylorsville Elementary website located at www.bcs.k12.in.us/taylorsville.
