Making Inferences While Identifying Similes and Metaphors

The Reading/Writing Connection

Creating Instructional Unit Resource Guides
Based on Principles of Universal Design and Differentiated

Improvement of Writing Skills and Reading Comprehension through a study of Literature Elements, Reading Strategies and Writing Strategies

5th Grade
Rob Irvine
Stout Field Elementary/MSD of Wayne
This project was created in order to give students an active lesson in discovering similes and metaphors as well as their connections to inferencing while reading. This is my second year teaching 5th grade at Stout Field Elementary School. I have made an attempt to learn and implement as much technology into the classroom. I have found an increase in student participation with the increase in technology use. This unit was designed to create an interesting and engaging way for students to find and use inferences in reading and writing. I plan to teach the unit in conjunction with an inferencing unit in reading. The unit will last approximately one week and I hope that students are able to identify similes and metaphors in text and elaborate on their meanings.

Standards
What standards will be met through this unit?

5.1.5 Understand and explain the figurative use of words in similes (comparisons that use like or as: The stars were like a million diamonds in the sky.) and metaphors (implied comparisons: The stars were brilliant diamonds in the night sky.).

5.2.4 Draw inferences, conclusions, or generalizations about text and support them with textual evidence and prior knowledge. Example: After reading Rosa Parks: My Story by Rosa Parks, compare life today with life during the time of Rosa Parks’ story, supporting the comparison with ideas from the text and from experience or other outside sources.

5.3.5 Describe the function and effect of common literary devices, such as imagery, metaphor, and symbolism.

   Symbolism: the use of an object to represent something else; for example, a dove might symbolize peace.

   Imagery: the use of language to create vivid pictures in the reader’s mind.

   Metaphor: an implied comparison in which a word or phrase is used in place of another, such as He was drowning in money.

5.5.5 Use varied word choices to make writing interesting. Example: Write stories, reports, and letters showing a variety of word choices: use inquired or requested instead of asked.

5.5.6 Write for different purposes and to a specific audience or person, adjusting tone and style as appropriate. Example: Write a skit or an episode of a puppet show to present at your class talent show. Use funny words and phrases to make the audience laugh.
Some students will be able to:

- Create similes and metaphors using vivid language.
- Recognize and elaborate on comparisons in similes and metaphors.
- Make inferences based on any simile and metaphor.

Most students will:

- Create similes and metaphors in their writing.
- Recognize the comparisons in similes and metaphors.
- Make inferences based on similes and common metaphors.

All students will be able to:

- Identify similes and metaphors in text.
- Make inferences based off common similes.
- Create a simile in their writing.
Teacher Library

What materials and resources will be useful for teachers?

This website provides a link for various Indiana State Standards and the activities that can be presented using the Smart Board.

Graphic Organizers:

Resources for locating instructional materials:  Google

http://www.google.com

Enchanted Learning
http://www.enchantedlearning.com
Learner

What materials and resources will be useful for engaging students in meaningful learning activities?

*The students will use both the Smart Board and a Graphic organizer to complete the learning activities.*

The preceding website contains a Powerpoint presentation that can become an interactive program when used with a Smart Board.

The preceding website contains a Powerpoint presentation that can become an interactive program when used with a Smart Board.

The preceding website contains a Powerpoint presentation that can become an interactive program when used with a Smart Board.

Graphic Organizers:
This graphic organizer was first modeled using the Smart Board, and then all students completed the document in their leveled text.
Assessment

What materials and resources will be useful for assessing student knowledge and skills?

*Students will find the following website, print out the worksheets and complete them for a homework assignment.*

http://volweb.utk.edu/Schools/bedford/harrisms/1poe.htm

They will then proceed to the following website to complete the activity
